Level 1 - View the full [SYLLABUS HERE](#)

Level 2 - View the full [SYLLABUS HERE](#)

## Advisory Note:

**Level 1** is considered to be the most comprehensive in the industry at this level.

It covers Stage 1 theory and a great deal of BHS Stage 2 information.

**Stage 2** is the standard required by those taking professional instructors/teaching exams

The syllabi are not aligned exactly with the Stages however, the Intermediate Diplomas provide the majority of the theory knowledge required by those taking BHS Stages 1 & 2 and are therefore used by many who are training on a part time basis.
